Very Good Game :D. Very nice and simple way of putting strategy into a racing game.. Very nice and simple way of putting strategy into a racing game.. The online mode isn't very populated yet. But I had a lot of fun trying to beat other peoples' times on the steam leaderboards. The controls are very nice and responsive, if you like arcade like racing games this is definitely a good purchase for you.. Reminds me of those lego race track kits I would build as a kid.. it is astonashing wow
